# Introduction

# 3

Congratulations!

You have made an excellent choice with the purchase of this quality Gardenline® product.

By doing so you now have the assurance and peace of mind which comes from purchasing a product that has been manufactured to the highest standards of performance and safety, supported by the high quality standards of ALDI.

We want you to be completely satisfied with your purchase so this Gardenline® product is backed by a comprehensive manufacturer's 3 year warranty and an outstanding after sales service through our dedicated Helpline.

We hope you will enjoy using your purchase for many years to come.

If you require technical support or in the unlikely event that your purchase is faulty please telephone our Helpline for immediate assistance. Faulty product claims made within the 3 year warranty period will be repaired or replaced free of charge provided that you have satisfactory proof of purchase (keep your receipt). This does not affect your statutory rights. However, be aware that the warranty will become null and void if the product is found to have been deliberately damaged, misused or disassembled.

The product you have acquired has also been treated with a primer coat of rust inhibitor underneath the surface coat because it is designed for use outdoors. Please note that the rust inhibitor will only be effective if the surface is not damaged during assembly or setting up by scratches or by bending where it has been welded.

# Assembly Instructions

# 5

We recommend assembly on a flat surface before setting up at the final location.

1. Lay the arch sections next to each other (in the order shown in the sketch in Fig. 2) on the side double-frames (sketch Fig. 1.)  
Make sure the leaves face up towards the round arch.

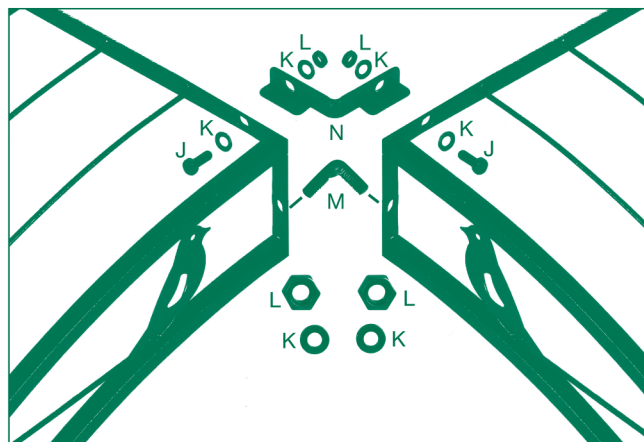

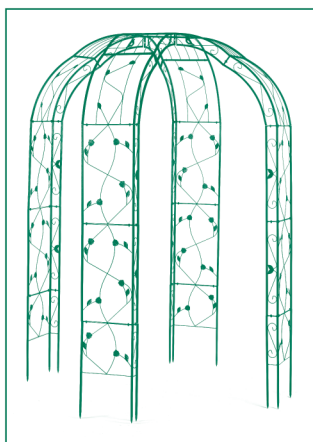

2. Connect the individual sections with 3 each hex bolts (J) and nuts (L) plus 2 washers (K) (see figure to left). Please only hand-tighten the bolts at first.
3. Firmly tighten all bolts and nuts only after all the sections are connected with each other.
4. To ensure a secure footing of the garden arch simply stick it into the ground or, for the best support, embed it in concrete in the soil. A depth of approx. 12 inches is recommended.

# Assembly Instructions

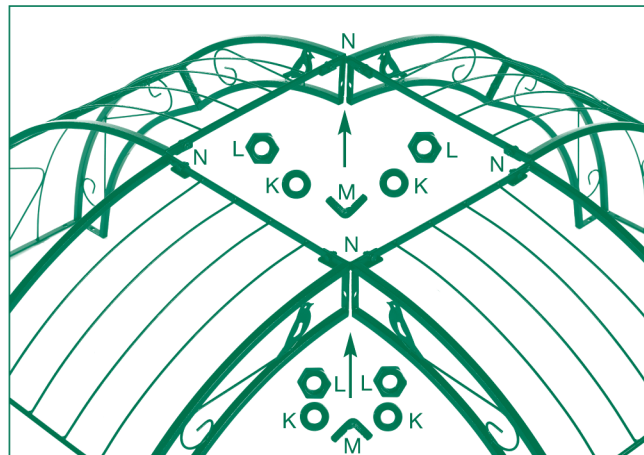

# 5

## 2 garden arches

Two complete garden arches plus the respectively enclosed assembly material are needed for the rose arbour.

Both garden arches will each be pre-assembled into 2 semiarches (1 semiarch A-D and 1 semiarch H-E). The 4 available semiarches will be bolted to the 4 each corner angles (Part N) in accordance with the sketch.

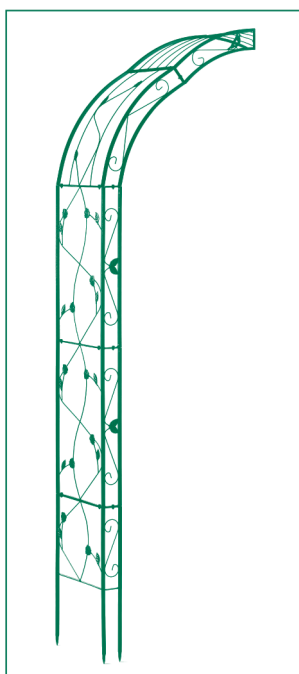

# Assembly Instructions

# 5

## Garden arch divided

To ensure a secure footing, please firmly anchor to the masonry with commercial quality anchors/dowels/bolts.

(The anchors/dowels/bolts for fastening are not included)

### Warning

- Keep the plastic bags away from babies and small children.  
Risk of suffocation.
- When setting up, make sure it is stable and that it is inserted to a sufficient depth (Part A and H).
- The product is only intended for domestic/private use.
- The garden arch is not a toy or climbing equipment for children.

### Cleaning tips

We recommend a mild soap solution for cleaning.

### Disposal

The product's packaging material is mostly made from recyclable material. Dispose of this in an environmentally responsible way. Do not throw this product out with the normal household trash when it reaches the end of its useful life.

Your local waste management service can inform you about how best to dispose of this product.
