WARNING-RISK OF INJURY: Always use the food holder/finger protector when preparing pieces of food. Always place your fingers and thumb in the holder as indicated on the food holder. Never use the mandoline slicer without the food holder.

Prior to first use:
1. Carefully remove the protective film from the attachments.
2. Thoroughly wash and dry all parts in warm, soapy water.
   * All parts of the slicer are dishwasher safe*

Use
Push the food holder/finger protector onto the food item to be cut.

Ensure your fingers are in the holder/finger protector as shown in Figure 1 and Figure 2.

Ensure Food Holder is positioned with the white arrows parallel to the slicer. See Figure 1.

Place the food holder/finger protector onto the slicer as shown. Slightly press the food holder/finger protector with the food item down, at the same time sliding the food item back and forth over the slicer. The “spikes” underneath will hold the food item while it is being sliced. **Never place your hand underneath the food holder.**

Slicing & Grating
Slide the desired attachment into the wide, upper compartment of the slicer. The other attachments can be stored in the lower compartments while not in use. When storing the julienne attachment, it must be inserted with the blades facing downward.

Cutting Julienne Strips
Insert the julienne attachment into the slicer with the blades facing upwards.

Large pieces of food that do not fit in the opening of the food holder/finger protector can be placed directly on the slicer. Always use the food holder and never place your hand underneath.
Cleaning and Storage

The food holder, attachments, and frame of slicer can be placed in top rack of dishwasher. Do not use the heat dry cycle.

Store attachments in the slicer when completely dry. Insert the julienne attachment with the blades facing down to prevent accidental cuts.
