AFTER SALES SUPPORT

USA 888-525-6745 service@kalorik.com

MODEL: 44047-14 11/2014

Type: 44047-14
Congratulations!

You have made an excellent choice with the purchase of this quality Kitchen Living product. By doing so you now have the assurance and peace of mind which comes from purchasing a product that has been manufactured to the highest standards of performance and safety, supported by the high quality standards of ALDI.

We want you to be completely satisfied with your purchase so this Kitchen Living product is backed by a limited manufacturer’s 2 year warranty and an outstanding after sales service through our dedicated Helpline.

We hope you will enjoy using your purchase for many years to come.

If you require technical support or in the unlikely event that your purchase is faulty, please telephone our Helpline for immediate assistance. Faulty product claims made within the 2 year warranty period will be repaired or replaced free of charge provided that you have satisfactory proof of purchase (keep your receipt). This guarantee is in addition to your statutory rights. Your statutory rights are not affected. This limited warranty does not apply in cases of damage caused by accident, improper use, abuse and force majeure.

This limited warranty will be invalidated if the appliance is tampered with in any way whatsoever. In case of questions or technical problems please call the following toll-free help line number: 1-888-521-TEAM (Business hours: Mon-Thu 9:00am - 5:00pm ET, and Fri 9:00am - 4:00pm)

If the appliance has to be returned to us, it must be packed correctly as we cannot accept any responsibility for damage caused in transit.
IMPORTANT SAFEGUARDS

When using electrical appliances, basic safety precautions should always be followed, including the following:

1. **READ ALL INSTRUCTIONS BEFORE USE.**
2. Check that the voltage in your home corresponds to that stated on the rating plate of the appliance before using.
3. To protect against electrical shock do not immerse cord, plug, or the motor unit in water or other liquids.
4. Close supervision is necessary when the appliance is used near children. This appliance is not intended to be used by children.
5. Unplug from outlet when not in use, and before putting on or taking off parts, or before cleaning.
6. Avoid contact with moving parts.
7. Do not operate any appliance with a damaged cord or plug or after the appliance malfunctions or has been damaged in any manner. Return appliance to the authorized service facility for examination, repair, or adjustment.
8. The use of accessories or attachments not recommended by the appliance manufacturer may cause fire, electric shock or injury.
9. Blades are sharp. Handle carefully. Always handle blades with your hand away from the cutting edge. Always store blades with the cutting edge away from you.
10. Do not use outdoors or for commercial purposes.
11. Do not let cord hang over edge of table or counter or touch hot surfaces.
12. Do not place on or near a hot gas or electric burner, or in a heated oven.
13. To disconnect, put appliance in off position and remove the plug from the wall outlet.
14. Do not use appliance for other than intended use.
15. It is absolutely necessary to keep the blades of this appliance clean at all times as they come into direct contact with food.
16. Do not attempt to sharpen the blades.

HOUSEHOLD USE ONLY
KEEP THESE INSTRUCTIONS
This appliance is equipped with a polarized plug (one blade is wider than the other). To reduce the risk of electric shock, this plug will fit into the polarized outlet only one way. If the plug does not properly fit into the outlet at first, reverse it. If it still does not fit, contact a qualified electrician. **Do not attempt to modify the plug in any way.**

**Short cord instructions**

A short power supply cord is provided to reduce the hazards resulting from becoming entangled in, or tripping over a longer cord. Extension cords may be used if care is exercised in their use.

- The electrical rating of the extension cord should be at least that of the appliance. If the electrical rating of the extension cord is too low, it could overheat and burn.
- The resulting extended cord should be arranged so that it will not drape over the counter top or tabletop where it can be pulled on by children or tripped over.

**Part description**

1. Storage box  
2. Stainless steel serrated blades  
3. Blade plastic guards  
4. On-off switch  
5. Stainless steel carving fork  
6. Power handle  
7. Blade release switch
Before the first use

• Before initial use, and after each subsequent use, remove the plastic safety sheath, then wash the knife blades in warm soapy water and dry thoroughly, or wash in an automatic dishwasher. Please refer to the section “Care and Cleaning” for more details.
• Wipe the power handle with a damp cloth to clean. Never immerse the power handle in water or any other liquids.
• Blades are sharp; handle carefully.

How to use

Caution: Always handle blades by the plastic guards, by the blunt edge of the knife or with the plastic safety sheath when inserting or removing them from the power handle, and during cleaning. The blades are extremely sharp. Keep fingers away from the cutting edge!

• Use the electric knife for boiled, roasted or baked food. Do not cut frozen or very hard food. Do not attempt to cut bones or anything other than food.
• Make sure the appliance is unplugged before inserting the blades.
• Hold the blades by the plastic guards and insert them into the power handle with the serrated edge facing the underside of the power handle.
• Slide the blades as far as possible into the power handle to ensure that the blades are fully engaged. You should hear a “click” sound as each blade is locked in position.
• Plug the cord into a wall outlet.
• Be sure to remove the blade safety sheath from the blades.
• Hold the food firmly in place with the supplied carving fork.
• Place the blade near the food to cut, and press on the on-off switch on the underside of the power handle.
• Always cut through the food carefully, from top to bottom; cut with only little pressure on the knife’s power handle.
• To stop the blades, simply release the on-off switch.
• Be careful not to cut into bones; otherwise your blades might become blunt.
• After use, unplug the appliance immediately from the wall outlet.

Note: During operation, be sure to position your hand away from the moving blades, and behind the blades release switch, to avoid accidentally disengaging the blades.

Note: If the knife is held incorrectly and if the blades disengage during operation, the electric knife may stall and not cut correctly.
Electric Knife

Helpful hints

• Carve preferably on a wooden board, since metal or china may get scratched and damaged by any knife.
• For best results when cutting through thick crusts, hold the knife at a slight angle while cutting the crust. Once you have cut through the crust, finish slicing the bread with the knife blade straight with the bread.
• Before carving cooked meats, allow meat to stand for 10 minutes after removal from the oven, to set juices. This makes for an easier and cleaner slicing.

Care and cleaning

• Be sure the electric knife is unplugged.
• To remove the blades, press the blade release switch. Hold the blades through the plastic guards and pull the blades away from the power handle.
• Separate the 2 blades by sliding the rivet from the one blade out of the keyhole slot of the other blade. Carefully wash the blades and carving fork in warm soapy water. Blades and fork may also be washed in an automatic dishwasher.
• Dry thoroughly and slide the plastic safety sheath over the blades.
• Wipe the power handle with a damp cloth.
• **Never immerse the power handle in water or any other liquid**
  • Store the electric knife, the reassembled blades (serrated edge facing down) and the carving fork in their storage box.
  • Blades are sharp; always handle carefully.
Warranty conditions

Dear Customer,

The ALDI warranty offers you extensive benefits compared to the statutory obligation arising from a warranty:

**Warranty period:** 2 years from date of purchase.*
- **6 months** for wear parts and consumables under normal and proper conditions of use (e.g. rechargeable batteries).

**Cost:** Free repair/exchange or refund.

**ADVICE:** Please contact our service hotline by phone, e-mail or fax before sending in the device. This allows us to provide support in the event of possible operators errors.

In order to make a claim under the warranty, please send us:

- the original receipt and the warranty card properly completed.
- the product with all components included in the packaging.

The warranty does not cover damage caused by:

- **Accident** or **unanticipated events** (e.g. lightning, water, fire).
- **Improper use** or **transport**.
- **Disregard of the safety** and **maintenance instructions**.
- Other **improper treatment** or **modification**.

After the expiry of the warranty period, you still have the possibility to have your product repaired at your own expense. If the repair or the estimate of costs is not free of charge you will be informed accordingly in advance.

This warranty does not limit the statutory obligation of the seller arising from a warranty. The period of warranty can only be extended in accordance with a legal standard. In countries where a (compulsory) warranty and/or spare part storage and/or a system for compensation are/is required by law, the statutory minimum conditions apply. In the event that a product is received for repair, neither the service company nor the seller will assume any liability for data or settings possibly stored on the product by the customer.
